## PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Engineering student with expertise in backend development, API integration, and database management. Strong problem-solving abilities and a keen interest in creating scalable and efficient software solutions.

## SKILLS

**Programming:** Java, Python, C++, PHP, SQL

**Web Technologies:** HTML, CSS

**API Integration Tools:** Git, VS Code

**Soft Skills:** Problem-solving, Communication, Teamwork, Time Management

**Systems:** Windows, Linux

## EDUCATION

**Bachelor of Engineering (Computer Engineering), SP Pune University (2022 - 2025)**

CGPA: 7.86 (Third Year) | First Class with Distinction

**Diploma in Information Technology, Govt. Residence Women Polytechnic, Tasgaon, Sangli (2019 - 2022)**

Percentage: 82.13% | First Class with Distinction

**SSC (10th), SSC Board (2019)**

Percentage: 83.40% | First Class with Distinction

## PROJECTS

### Grievance Support System for College:

- Developed a web-based grievance redressal platform for students.
- Implemented secure user authentication and role-based access.
- Integrated automated notifications for timely communication.
- Tech Stack: HTML, CSS, PHP, SQL.

### Chatbot for College Enquiry using NLP:

- Built an NLP-based chatbot to handle college enquiry queries using Python, NLTK, and machine learning.
- Integrated FAQ database to provide instant responses on admissions, courses, and fees.
- Deployed chatbot on a web interface using Flask with HTML, CSS, JavaScript for real-time student interaction.

## CERTIFICATIONS

- Web Development in Python - Amplifier Electronics Pvt. Ltd.
- Java Logic Journey - Udemy
- Complete Git and Github Course - Geekster

## INDUSTRIAL TRAINING

### Web-development with Python (Amplifier Electronics Pvt. Ltd.)

- Gained hands-on experience in software development practices and tools.
- Improved technical proficiency through exposure to real-world systems.
- Explored modern technologies to streamline business processes.
